**MECADEMIC SIGNS DISTRIBUTION AGREEMENT WITH IN-
POSITION TECHNOLOGIES.**

February 15, 2018 Chandler, AZ -- Mecademic, Inc., signs In-Position Technologies to a contract providing resale rights in the states of Arizona, California, Colorado, New Mexico and Nevada.

Neil Jacques, founder of In-Position Technologies, states, “Mecademic will give us significantly greater ability to meet our customer’s robotic needs. The Meca500 is an OEM focused robot that is well priced and readily available. It is the world highest precision 6-axis robot and fits into many applications where other robots would not fit due to their size. We are very confident the market will respond well to this new robot offering and so we have placed a large stocking order to ensure fast delivery to our clients.”
