

CTC HPC/HPX PowerStations

NEW

Industrial PCs

HMI Workstations

Hardened Industrial Workstations at Light Duty Prices

- Panel Mount Touchscreen and Split System PCs
- High performance PC tested to the extremes
- UL rated for NEMA Type 4/4X hosedown
- Built for "out of box success" with a 24-month warranty
- Designed and manufactured in the USA

Available as an Industrial PC (HPC) or . . . InteractX Windows-based HMI (HPX) PowerStation

With 10", 15", and 17" panel mount touchscreen systems, and a non-display system, the new HPC PowerStation line of Industrial PCs is designed and tested to extremes. HPC PowerStations are NEMA-rated, robust units that are tougher than "light duty" Industrial workstations with more processor, media and connectivity performance for your money.

CTC's award winning InteractX Windows HMI software can be purchased, installed and licensed with HPX PowerStation versions of this workstation line. This reliable, high-performance PC platform will serve your factory automation needs for years to come!

The CTC Advantage

At Parker CTC, we take pride in delivering quality hardware solutions that you can count on to operate 24 hours a day – regardless of harsh factory floor environments. As a single-source supplier of both hardware and software, we are able to simplify integration, support and training for users. Our software and hardware are tested under the same roof, giving you the best possible system performance with the highest level of reliability. In fact, our units are thoroughly tested, meeting the challenge of passing more tests in one day than most other units see in a lifetime.

*It is quality-driven testing like this
that builds in the reliability you
need on the factory floor.*
