

Turnkey Palletizing Solution

Robotiq's Palletizing Solution

A fully turnkey solution that can be set up in just a few days. Effortlessly handles various payloads and pallet heights with remarkable flexibility. Achieve a return on investment in under a year.

-  **Changeovers:** Simple program selection allows for zero-downtime line changes.
-  **ROI:** Faster deployment and lower costs means 2 years or lower ROI.
-  **Small Footprint:** Without a cage, cobot palletizers can fit into existing line configurations, saving space and reducing downtime.
-  **Safety:** Only pay for the level of safety you need with our wide range of safety options.
-  **Conveyor:** Need to extend your line? Our cost-effective driven conveyor options tie right into the robot controls and save you time.
