Empowering American Man

Our mission is to increase the productivity of American manufacturers. We do this by partnering with our customers, empowering them to implement robotics and motion control technologies.

Your Regional Automation Experts

-  Our FCG Division Offices
-  Our Major Territories
-  Our Office Locations

-  **Chandler, AZ** | (480) 893-8086
-  **Kaysville, UT** | (801) 355-9899
-  **Westminster, CO** | (303) 231-9955
-  **San Jose, CA** | (916) 914-3040
-  **Albuquerque, NM** | (505) 232-6612

Proudly part of Flow Control Group (FCG) — a North American organization of high-tech distributors of solutions for flow control, industrial automation, sanitary, thermal, air & gas and process systems. With 170+ locations and 3500+ employees, FCG is positioned to provide expansive local and national support for our customers. www.flowcontrolgroup.com

FCG provides technically oriented products and services for **flow control, industrial automation and life sciences.**

Air Compression, Dehydration & Purification

Instrumentation, Measurement & Controls

Process Automation

Single-use Biodisposable Hoses & Tubing

Motion Control, Machine Vision Robotics & Safety

Pumps & Controls

Sealing, O-Rings & Materials

Steam & Condensate

Hoses, Tubing & Connectors

Filtration & Purification

Heat Trace & Transfer

Corrosion Resistant Flow Control

Manufacturers to Automate

OUR CORE VALUES

Partner

We work with our customers and suppliers to deliver optimal solutions.

Productive

We create value in all that we do.

Flexible

We adapt to the changing needs of our customers.

Personal Ownership

We take accountability for the quality and outcomes of our actions.

Integrity

We are honest and committed to doing what's best for our partners.

OUR MANUFACTURERS

Providing engineering support since 1997

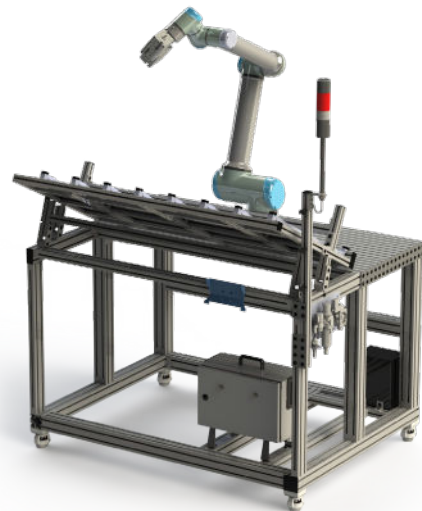

In-Position Technologies provides custom Automation & Engineering Services to optimize processes and boost productivity. From design to integration, our solutions align with your goals. Let us drive your success!

Services that we provide:

- ⚙️ TSLOTS / Aluminum Design
- ⚙️ Prototyping & Testing
- ⚙️ Maintenance & Servicing
- ⚙️ Programming & Software
- ⚙️ Troubleshooting & Support
- ⚙️ Upgrades & Retrofitting
- ⚙️ On-site Installation
- ⚙️ Training & Education
- ⚙️ System Design & Integration
- ⚙️ Quality Control & Assurance
- ⚙️ Contract Manufacturing
- ⚙️ Simulation & Modeling

Tailored Design Solutions

Unlock the power of custom-tailored solutions, meticulously crafted to align perfectly with your unique requirements and challenges. From initial concept to final implementation, our team is dedicated to providing unparalleled support and expertise every step of the way.

We Provide Solutions

Engineering

We value open dialogue and collaboration to solve complex challenges efficiently.

Design

Unlock tailored solutions with our expert design services, from CAD modeling to system design.

Support

Get expert support every step, from consultation to ongoing assistance.
